About Avalon University

Avalon University School of Medicine is a private medical institution located in Willemstad, Curaçao. The university is known for offering a U.S.-modeled MD program tailored for international students, especially those from the United States and Canada. It emphasizes the integration of basic sciences and clinical practice, supported by experienced faculty with international training backgrounds.

Avalon's curriculum is designed to meet the standards of international medical boards and supports students in preparing for exams like USMLE (USA) and MCCQE (Canada). Clinical rotations are primarily held in affiliated hospitals in the United States, offering students real-world experience in American healthcare settings.

Why Choose Avalon University for MD?

Recognized by ECFMG and listed in WDOMS

U.S.-based curriculum with clinical rotations in the U.S.

Focused preparation for USMLE and MCCQE

Small class sizes with individual academic support

Faculty trained in North America and Europe

Affordable tuition compared to U.S. medical schools

Residency guidance and mentorship support

Diverse campus with students from around the world

English-medium instruction throughout the course

Culturally rich student life in a scenic Caribbean environment

Why Study in Curaçao?

Curaçao offers the benefits of a Caribbean lifestyle combined with academic rigor. It is a safe, English-friendly island with modern infrastructure and close proximity to the Americas. With a U.S.-oriented medical curriculum and clinical training opportunities in the United States, Curaçao is emerging as a preferred destination for medical aspirants seeking international exposure.
