About

Study at Tashkent Medical Academy

About Tashkent Medical Academy

Tashkent Medical Academy (TMA) is one of the leading medical universities in Uzbekistan, attracting international students with its high academic standards and global recognition. Established in 1919, the academy has a long history of excellence in medical education. With modern teaching methods, clinical training in affiliated hospitals, and English-medium instruction, TMA is an ideal choice for Indian students seeking a quality MBBS degree abroad.

Why Choose Tashkent Medical Academy for MBBS?

- Recognized by NMC, WHO, FAIMER, and ECFMG
- No IELTS/TOEFL required for admission
- Affordable tuition and low cost of living
- English-medium MBBS program
- Extensive clinical exposure with practical training
- Indian food and separate hostels for boys and girls
- Direct 3-hour flight from Delhi to Tashkent

Why Study in Uzbekistan?

Uzbekistan has emerged as a safe and student-friendly destination for MBBS aspirants. With a 99.9% literacy rate and a strong focus on education and healthcare, the country offers globally accepted degrees at reasonable costs. Its cultural closeness to India and a manageable time difference of just 30 minutes behind IST make it even more appealing to Indian students.

Life at Tashkent Medical Academy

Student life at TMA is enriching and diverse. The university hosts students from over 25 countries and offers excellent campus facilities, libraries, and laboratories. Students can participate in cultural programs, sports, and international exchange activities. TMA also provides Indian meals, safe accommodation, and a supportive academic environment to ensure students feel at home while pursuing their medical education.

Features

Post Graduation Permit

TMA graduates can apply for licensing exams like FMGE/NExT in India or USMLE in the USA to continue higher education or practice medicine globally.

Co-op/Internship Participation

Students receive hands-on training through hospital rotations and internships in affiliated medical centers across Tashkent.
