About Armenian Medical Institute (AMI)

Established in 1990, the Armenian Medical Institute (AMI) is the first private medical university in Yerevan, Armenia. With over three decades of experience, AMI has become a preferred destination for MBBS aspirants worldwide. Recognized by global medical councils and listed in the World Directory of Medical Schools, AMI offers English-medium MBBS programs with modern infrastructure and experienced faculty.

AMI equips students with globally accepted medical degrees, enabling them to pursue careers both in Armenia and abroad. The university is also known for its active participation in medical conferences, including the 22nd International General Pediatrics Conference in 2024, reaffirming its commitment to research and international collaboration.

Why Choose AMI for MBBS?

First private medical institute in Armenia
Recognized by WHO, NMC (India), UNESCO
MBBS course taught entirely in English
No entrance exam required for admission
Affordable tuition and hostel fees
Diverse student community with global exposure
Regular academic and scientific events
Faculty includes globally experienced professionals
On-campus hostel & student support for international students
Degree allows for international medical licensing exams

Why Study in Armenia?

Armenia is a rising hub for international medical education. With English-taught programs, strong Indo-Armenian relations, peaceful surroundings, and affordable living, it's a top choice for Indian students seeking a global medical degree.

Life at Armenian Medical Institute

Student life at AMI is a blend of academic excellence and cultural richness. Key features include:

Comfortable hostel accommodations

English-speaking academic environment

Participation in conferences, workshops, and seminars

Indian mess, groceries, and community support

Access to clinical training and research

Safe, welcoming city with peaceful lifestyle

AMI ensures its students gain practical medical experience, academic growth, and global exposure in a nurturing environment.
