Study at St. Tereza Medical University

About St. Tereza Medical University

St. Tereza Medical University (STMU), established in 1992, is a leading private medical university in Yerevan, Armenia. Recognized by the World Health Organization (WHO) and the National Medical Commission (NMC), STMU offers a globally valid MBBS degree. With a focus on academic excellence and hands-on clinical training, it has become a preferred destination for medical aspirants from India and beyond.

The university offers a 6-year MBBS program entirely taught in English, integrating classroom teaching with simulation-based practical training and mandatory internships. STMU is known for its modern labs, digital infrastructure, and a strong academic culture driven by international partnerships.

Why Choose St. Tereza Medical University for MBBS?

Globally recognized MBBS degree (WHO, NMC, UNESCO approved)

Affordable tuition at \$3,400 per year

100% English-medium instruction

No IELTS/TOEFL required
Transparent & simple admission process
Access to simulation labs and on-site hospital training
Active student exchange and international collaborations
Multicultural student community and inclusive environment
Faculty with global academic and clinical experience
Strong academic development and strategic initiatives

Why Study MBBS in Armenia?

Armenia offers a peaceful, safe, and affordable environment for international students. With a strong emphasis on healthcare development and medical education reform, it provides globally competitive medical degrees at reasonable costs. Its close diplomatic and educational ties with India make it a trusted study destination for Indian MBBS aspirants.

Life at St. Tereza Medical University

Student life at STMU is well-balanced between academics and personal development. The university provides:

Clinical exposure through simulation labs and affiliated hospitals
Modern classrooms, digital learning platforms, and library access
Indian food options, shared hostels, and support for international students
Cultural exchange and participation in international medical conferences
Safe campus with secure housing and student services
