

## Collegium Medicum Jagiellonian University

Poland has emerged as a favored destination for students aspiring to pursue MBBS abroad, thanks to its modern infrastructure, highly qualified faculty, and strong educational framework. As one of Europe's fastest-growing economies, Poland has attracted over 46,000 international students in a relatively short time. The surge in students choosing to study MBBS in Poland is largely due to its cost-effective fee structure and the straightforward application process.

Collegium Medicum of the Jagiellonian University is the medical college of Jagiellonian University, one of the oldest and most prestigious universities in Europe, located in Kraków, Poland. Established in 1364 and restructured in 1993, Jagiellonian University Medical College (UJCM) offers world-class education in medicine, dentistry, pharmacy, and health sciences. It is known for its modern curriculum, state-of-the-art laboratories, and internationally recognized faculty. Collegium Medicum of Jagiellonian University combines centuries of academic tradition with cutting-edge medical research and clinical practice. The university's programs are offered in both Polish and English, attracting students from around the globe. The Jagiellonian University Medical College also collaborates with leading hospitals and research institutions, providing students with valuable hands-on experience and opportunities for scientific development.

The graduation ceremonies at the Collegium Medicum of the Jagiellonian University are esteemed events that honor the academic achievements of its medical and dental students. These ceremonies are typically held in prominent university venues such as the Auditorium Maximum or the Aula of Collegium Novum, reflecting the institution's rich heritage and commitment to excellence.

For instance, on June 29, 2024, the Jagiellonian University Medical College conducted a graduation ceremony for 84 students from the School of Medicine in English, encompassing both the medical and dental programs. The event was presided over by Professor Agata Ptak-Belowska, Vice-Dean for English-language programs, and was attended by key university officials, including Professor Maciej Małecki, Dean of the Faculty of Medicine. During the ceremony, graduates received their diplomas, with four students earning distinctions. The graduates expressed their gratitude to the faculty, presenting flowers and tokens of appreciation to distinguished lecturers such as Professor Monika Bociąga-Jasik and Dr. Christopher Pavlinec. Additionally, student-athletes were recognized with commemorative statuettes by the university's Physical Education and Sports team.

Similarly, on May 16, 2022, the Jagiellonian University Medical College celebrated the graduation of 40 international medical students. The ceremony featured notable attendees, including the U.S. Consul General in Kraków, Patrick T. Slowinski, and Professor Ralph Jozefowicz from the University of Rochester. Graduates honored faculty members such as Professor Jerzy Walocha and Dr. Małgorzata Mazur for their exceptional contributions to their education. The ICD Director expressed his strong support for the initiative and praised for promoting inclusive education and international academic collaboration.
