Study at Kyrgyz Russian Slavic University

About KRSU

Founded in 1993 through a bilateral agreement between Russia and Kyrgyzstan, Kyrgyz Russian Slavic University (KRSU) is a premier public university located in the heart of Bishkek, Kyrgyzstan's capital. The university is recognized by WHO, NMC (India), MCI, and other major global medical councils.

KRSU is home to over 11,000 students, including 900+ international students. The medical faculty at KRSU provides a globally accepted MBBS degree taught in English, offering students early access to clinical exposure and cadaver-based practical training from the first year.

Why Choose Kyrgyz Russian Slavic University for MBBS?

WHO, NMC, MCI, and ECFMG recognized

English-medium MBBS program

No IELTS/TOEFL required for admission

Practical training from Year 1 on human cadavers

Affordable tuition and low cost of living

Four-star hostel with Indian food options

Clinical internships in 28+ specializations

Experienced English-speaking faculty

International student environment for global exposure

Advanced training with virtual/augmented reality

Access to modern labs, libraries, and research centers

Why Study in Kyrgyzstan?

Kyrgyzstan is one of the top destinations for MBBS abroad due to its budget-friendly education, globally approved degrees, and safe living environment. With English-taught programs, well-equipped universities, and welcoming communities, it offers a great balance of education and comfort for Indian and international students.

Life at KRSU

Life at KRSU blends academic rigor with vibrant student experiences:

Exposure to scientific conferences and seminars

Participation in Central Asia's major academic forums

Student-friendly facilities like libraries, sports, and mess

Well-furnished separate hostels for boys and girls

Indian food available on campus

Supportive faculty and multicultural peer groups

Focus on innovation, career development, and hands-on learning

Features

Public university backed by both Russia and Kyrgyzstan

Medium of instruction: English & Russian

Globally recognized MBBS degree

Interactive classrooms and advanced clinical tools

No language barrier for Indian students

Affordable MBBS with modern medical training infrastructure

Location

Bishkek, Kyrgyzstan – The capital city offers modern urban life, excellent connectivity, and a peaceful study environment. KRSU's central location gives students easy access to city amenities and clinical training hospitals.
