- Reputation: Top-ranked in terms of research and internationalization.
- Programs Offered:
- Medicine (6 years, English/French/Romanian), Dental course, Pharmacy
- Language of Instruction: Romanian, English, French
- International Appeal: Very high; a major hub for EU and non-EU students.

Iuliu Hațieganu University of Medicine and Pharmacy was established in 1919 and is the oldest medical education institution in Transylvania. A neurocognitive campus inside a medieval tech city. "Students here are immersed in a UNESCO-heritage city's calm, while they study in a university running virtual cadaver labs and deep-brain stimulation simulations. Cluj's status as Romania's tech capital seeps into the curriculum — think medtech, not just medicine. Iuliu Hațieganu University of Medicine and Pharmacy collaborates with major hospitals in Cluj-Napoca, providing hands-on training for students.

Iuliu Hațieganu University of Medicine and Pharmacy (UMF Cluj) actively engages in a diverse array of academic conferences, reflecting its commitment to advancing medical and scientific knowledge. In November 2024, the university hosted the International Conference on School Hygiene, Health Promotion, and Sustainable Development in Schools and Universities, organized in collaboration with the European Network for Smoking and Tobacco Prevention as part of the Eures-Rise project. This event featured panel discussions, plenary talks, workshops, and round tables focusing on education, research, and policies for healthy youth and sustainable development

In December 2024, UMF Cluj co-hosted the 3rd Francophone Scientific Research Symposium in Central and Eastern Europe, supported by the French Embassy in Romania and the Agency of Francophone Universities. The symposium, conducted in French, included workshops across various scientific domains and offered best article awards with opportunities for research stays in France

The university also participated in the 14th International Conference on Progress in Uro-Oncology in September 2024, accredited by the European Accreditation Council for Continuing Medical Education (EACCME®) with 16 CME credits. This event, held in Cluj-Napoca, featured scientific presentations in English and Romanian, contributing to continuous medical education. **The Director of ICD also attended the event and contributed to discussions on academic and career prospects. The event attracted students, recruitment agencies, and university representatives from India and other Asian countries.**
